

I love listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am allowed to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support freedom of choice, competition and XM's ability to provide the kind of programming that our fellow citizens demand and deserve. Thank you.
